Experience:

In the following pages I've put all the projects I've been part of since 2012. Starting with the latest and notable projects I've completed in the United States. Right after that you can find page with my professional summary and all my projects completed in Europe. In the description I've pointed out my position in the project, the producing company, the period of shooting, Producers, Director, Director of Photography, 1st AD, Line Producer's and the leading actors of the project. On the last two pages you can find summary sheets of my prep and shooting days divided by projects and positions.

Professional Summary:

Energetic and well-trained Assistant Director with experience in all stages of production, coordinating all production activity with over 100 shooting days as 1st AD and over 800 shooting days as 2nd 2nd or 3rd AD on feature films, TV series , TV Commercials and music videos. Excellent communication skills, responsibly executing production schedule and keeping the set work efficient, carrying out instructions with enthusiasm and providing the crew with relevant information. Working effectively under pressure, ability to adapt quickly to changing situation and well developed sense of putting the crew down the path to achieve the goals of the production are skills that I've earned by working on high budget feature films where every minute is important for the smooth shooting process. Reading the script up to the detail and collaborating with Producers , Director, DP and HoD's to make sure that there is nothing unclear when it gets to shoot. Creating , reading and understanding Breakdown, Schedule, Call sheet , Shot list and Storyboards. Thinking ahead and keeping the concentration level high so there are no unexpected situations which can delay or obstruct the shooting. Set terminology and set etiquette knowledge, creativity and dedication to the project are part of my personal qualities. I'm familiar with the filming equipment (camera and lens types, camera supporting equipment – provided by Grip and Lighting departments; Camera vehicles; Art dept. facilities etc.) and filming methods (camera positions and movements; preparing, rehearsing and shooting scene with actors or stunts – fights, shootouts, ratchets, car chases; Special effects techniques; Special effects make up techniques;) which plays an important role when creating a schedule or follow one when involved in a project. Skills and knowledge to provide a realistic shooting schedule by collecting information from the departments, putting it together and deliver it to the crew using breakdown software Movie Magic Scheduling, advanced skills in Microsoft Office. When 2nd 2nd or 3rd – On set – providing the 1st AD with updated information about all the activity going on and off set regarding the prep of the particular shot. Directing background activity by giving motivation for the individual action and ensuring that the overall movement of extras and action vehicles are in an appropriate mood for the shot after coordinating with the 1st AD and confirming with the director. Supervising and managing the individual progress of talents, extras or stunts required for the shooting day making sure that make up, hair, costumes are on track with the timings for prep supporting the 2nd AD when in basecamp. Organizing logistics and providing information to the crew when changing location.

My main objective as an AD is to create a collaborative artistic and working environment for cast and crew which will provide energetic shooting process and achieve the desired results for the production.

OTHER PROJECTS:

“10.000 BC” TV REALITY SHOW SEASON 1 – 10 EPISODES – CHANNEL 5 BRITAIN |THE GARDEN PRODUCTIONS/GROUP M ENTERTAINMENT | OCTOBER – DECEMBER 2014

- POSITION: Assistant Director - <https://www.youtube.com/watch?v=UNX5qOU9JK8>

The social experiment series which follows 20 British people from all walks of life as they go back to the conditions of the Stone Age and try to survive two months in the wilderness. The 10,000 BC candidates were prepared and monitored by Klint Janulis, an archaeologist and survival expert. Janulis had spent 14 years in the U.S. military, initially as a Marine and then in the Army Special Forces. The series was set and filmed in the Byalka Hunting Preserve, near Lovech in the foothills of the Balkan Mountains, Bulgaria. The contestants were filmed for two months from October 2014.

“UDAYA YOGA” | UDAYA ENTERTAINMENT | 2013 - 2017

- POSITION: Assistant Director - <https://vimeo.com/74323096>

UDAYA produces and manages the distribution of high quality yoga content and health and wellness programs. In 2013 the organization launched Udaya.com, an online subscription based platform for the distribution of it's HD yoga classes and fitness related content. Members of Udaya.com are served 5 new yoga classes a week. Each Class is captured using highly specialized cinema industry camera equipment and an experienced film crew. We shoot using multiple camera angles to encapsulate every aspect of each pose and instruction.
